

Metal Detector Search Head Touch Screen Upgrade

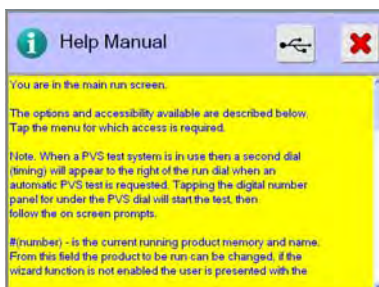

www.loma.com

Upgrade your old Loma Metal Detector Search Head with the latest technology from Loma Systems

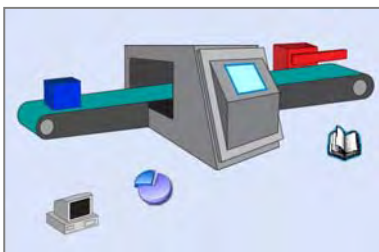

The Loma IQ+ full colour touch screen control panel, can easily be fitted to most existing Loma Metal Detector Search Heads. By upgrading you can extend the lifecycle of your current unit by protecting against electronic component obsolescence, whilst benefiting from Loma's latest technical metal detector innovations.

Operator screen with Performance Validation count-down timer, which assists in

Context Sensitive help screens, ensures compliance with internal quality standards

Icon Driven Menus simply intuitive mimic touch screen
