

Refurbishment & Upgrades

www.loma.com

Loma-Cintex can Refurbish your Metal Detectors, X-ray machines and Checkweighers to Optimal working order.

Refurbishments

- Free Site Visits are made to assess your machines and your requirements. An approximate price is given at each visit.
- Machinery is brought to the Loma-Cintex workshops where machines are assessed and repaired. Any variation in price from the original assessment is agreed with you prior to commencing any work.
- Experienced Refurbishment Engineers ensure an efficient, high quality completion of all work.
- Loma-Cintex Refurbishment Engineers will replace any component which shows signs of wear or imminent failure.
- All components are replaced with Genuine Loma and Cintex parts with warranty.
- Refurbishments can be planned within your schedule eg. to coincide with line shutdown avoiding unnecessary production downtime.
- Modifications and upgrades can be incorporated into the refurbishment.
- Refurbished machines are returned with a warranty appropriate to the equipment and nature of the repair.

Upgrades

- Machines can be upgraded on site, or within the Loma-Cintex dedicated workshops.
- Latest electronics, where available, can be applied to any machine.
- Upgrades to Supermarket specification eg, reject confirmation and bin full are available.

All refurbishment and upgrade costs can be discounted if purchased with other Loma-Cintex Service Products.
