

# LOMA<sup>®</sup> Training Academy

## COURSE: Radiation Safety & Compliance Training for Loma Cabinet X-ray Inspection Systems

Every X-ray inspection system owner must ensure that adequate steps have been taken in providing X-ray safety education to staff who are directly and indirectly subjected to X-ray radiation.

It is the responsibility of the owner to ensure such training is provided and the equipment is registered with the state's or province's regulatory agency.

At Loma Systems<sup>®</sup>, we will assist any owner and operator of our X-ray inspection systems by offering training in registration, regulatory compliance and radiation safety processes. As experts in our field, we have done all the work to ensure that your company is fully compliant.

### 4-hour Radiation Safety & Regulatory Compliance Registration Class

This course is intended for X-ray Operator and QA staff and will include:

- Overview of Cabinet X-ray systems
- Requirements for machine registration and regulatory compliance processes
- Overview of the machine's safety components
- Understanding radiation survey testing and forms
- Machine maintenance and procedures
- Optional 50 question exam and 25 question practical exam. (BOTH exams are required in the state of California, Title 17, paragraph 30337, Section 12(1)(2))
- Certificates provided upon successful completion

Contact Loma Systems at [enquiries@loma.com](mailto:enquiries@loma.com) or 800-872-5662. You may also contact your local X-ray Sales Representative to receive a quote and to discuss specific requirements for your state or province.
